

Marywood University String Project
LETTER OF COMMITMENT

To be returned with each application form.

In order for us to best help your child, we ask that you and your child sign this letter of commitment. We understand and are sympathetic to the realities of family life, but we ask each family to be fully committed to attending weekly classes and orchestra. As a result of the group setting (as opposed to one on one tuition) when students are absent, those students present are hampered in their progress due to the need to later repeat material, while those absent students have a difficult time keeping up with the skills.

- We/I agree to inform the director of any absences.
- We/I agree to attend classes and orchestra weekly, dress rehearsals and concerts.
